

HI Pump Test Laboratory Approval Program Committee

PURPOSE:

The purpose of the HI Pump Test Laboratory Approval Program Committee is to develop a pump test laboratory audit and inspection program to approve a pump test laboratory's ability to test the performance of certain products to applicable HI test standard(s).

SCOPE:

All pump test laboratories testing pumps and extended products to HI 40.6 and to adhere to the requirements of an international test lab standard of competence (ISO 17025).
